
Installing MSN Messenger Service Software

The following directions allow a user to download and install Microsoft Messenger Service software. This software allows users to communicate and collaborate with other users. The latest version of this software is 3.06.

1. First, download the latest version of the MSN Messenger Service software. The MSN Messenger home page is located at **<http://messenger.msn.com>**.
2. Click the **DOWNLOAD NOW** button to go to the next page.
3. If you **DO NOT** have a Passport or Hotmail account, click the **GET A PASSPORT button**. If you do have a Passport or Hotmail account, go to **STEP 5**.
4. A window will pop up that contains a registration page that will allow the user to obtain a **PASSPORT**. This is a free service offered by MSN. After you register, you will be able to download **MSN Messenger**. Go to **STEP 6**.
5. If you **DO** have a Passport or Hotmail account, click the **START DOWNLOAD button**.
6. When prompted, click the **SAVE THIS PROGRAM TO DISK** radio button and click **OK**. Save the file to a location on your computer so you can find the file later.
7. Find the file using either **MY COMPUTER OR WINDOWS EXPLORER**. Once you find the file, double-click the installation program to start the setup.
8. Follow the setup program's installation instructions to complete the setup.
9. Congratulations, you have now completed the installation of MSN Messenger Service software.
